

**YAKAMA NATION
SCIENTIFIC COLLECTOR'S PERMIT**

1. This Scientific Collector's Permit is issued by authority of the Yakama Nation pursuant to its status as a self-regulatory manager of fish and wildlife resources.
2. The undersigned agencies, entities, or persons are authorized to take fish and wildlife species listed below for scientific purposes only, subject to the conditions of this permit.
3. This permit is non-transferable. Agencies, entities, or persons not listed on this permit may not collect fish and wildlife species under authority of this permit.
4. A report of take must be completed and returned to the tribal Fisheries Resource Management Program at termination of sampling activities.

CONDITIONS:

Location, species and number to be taken: Lower Columbia River Hydro Projects, Bonneville (n=215), The Dalles (n=601), and John Day (n=424) and up to 1500 from Priest Rapids, and 300 from Rocky Reach; Species - Pacific Lamprey; in total up to 1240 adults from Lower Columbia and up to 1800 adults from Upper Columbia to trap and haul.

Purpose of collection: Primarily for translocation, but also for artificial propagation, passage studies, and other restoration and critical research needs.

Disposition of catch: Once adults are transferred to aerated fish totes, they will be transported either to the translocation stream/river directly or to Prosser Hatchery prior to translocation release or propagation (unless a specific need exists to transfer the fish to an alternative facility). Most of these lamprey will be released in the Yakima (n=500-1000), Wenatchee (n=350-700), and Methow (n=350-700) subbasins.

Agency, entity, or persons authorized to take fish and wildlife under this permit: Yakama Nation Fisheries Resource Management Program, Pacific Lamprey Project (Ralph Lampman, Tyler Beals, Dave'y Lumley, Sean Goudy, Kaylei Ryan and other crew members).

Dates or duration of sampling activities (not to exceed current year): May 10, 2016 to December 31, 2016

Other specific conditions: None
